

*the incomparable*  
**MARTIN**  
*recording bass*

The Martin recording bass has become the accepted standard of leading artists for dance or concert band. This fine bass is especially preferred for its solid, rich tone quality, eager response, amazingly accurate scale, and pleasing balance. The mouthpipe is adjustable for greatest playing ease and comfort. Bell is adjustable and removable, made to correct dimensions for best all-round performance and appearance. Action can be either front or top (illustrated), which allows better visibility, frees the left hand to handle music, and is preferred by those doubling on string bass. Extra register, 4th valve can be supplied at additional cost.

**AVAILABLE IN Eb, MEDIUM BBb  
AND LARGE BBb MODELS**
