### Martin cases

- A—*De Luxe*: Lightweight basswood frame and sides. Covered with vinyl resin coated fabric... scuff resistant, water repellent and washable. Genuine leather binding and handles. Extra end handle on saxophone and trombone cases. Solid brass hardware, best plush lining.
- B—*Regular*: Sturdy construction and covered with Pyroxylin coated fabric. Genuine leather handles; extra end handle on saxophone cases. Plated hardware, good plush lining.
- C—*Shaped*: Strong plywood construction for lightweight and maximum durability. Attractively grained Pyroxylin coated fabric. Plated hardware, good quality plush lining.

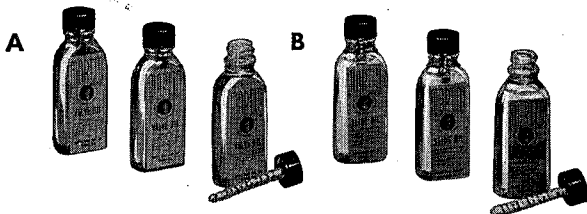

### Indiana cases

- A—*De Luxe Saxophone*: Professional type case with real leather binding and luxurious plush lining. Reasonably priced.
- B—*Standard Saxophone*: Gladstone type case constructed for durability and long service. Lined with quality plush.
- C—*Cornet, Trumpet, Trombone*: Made in shaped style only. Constructed of light, strong plywood. Attractively grained Pyroxylin coated fabric. Plush lined.

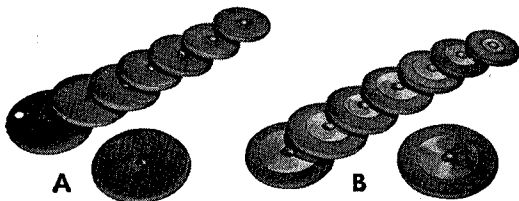

### case covers

Made of heavy waterproof duck with full zipper. Leather binding and reinforcing. Metal bottom gliders. Made to fit all Martin and Indiana square-type cases.

### Martin micromagic oil

- A—*Valve*: An extremely lightweight oil especially for use on the precision-fit valves of Martin Committee Model trumpets and cornets. Assures fast, smooth action.
- B—*Slide*: Special oil for Martin's "light as a fiddle bow" trombone slides. Used by top professional musicians.

### Martin saxophone pads

- A—Made of the finest woven felt, top quality kid covering, heavy paper backing, with center rivet.
- B—Same pad as "A" but with resonating metal disc center to give added power.
