

*the famous*  
**MARTIN**  
*sousaphone*

For more than forty years, the Martin Sousaphone has been widely known and respected by eminent conductors and musicians for one outstanding quality . . . tone. From a faint whisper to a thundering fortissimo, the tone of a Martin retains its clarity, never "cracks." The adjustable, removable bell is scientifically proportioned and carefully made by master craftsmen for greatest carrying power. Fine intonation, quick easy response, and perfect balance for parade or concert . . . these are other reasons why literally thousands of Martins have been purchased in preference to other Sousaphones, why they are famous the world over!

**AVAILABLE IN Eb, MEDIUM Bb  
AND LARGE Bb MODELS**
